

## Sheri Salin

**Sheri Salin** is a self-taught, award winning, Mystic Artist and published poet. A setback in her life turned into a blessing as she turned to painting and writing as a way of self-expression and self-healing. Sheri's exciting journey of creativity and self-discovery enabled her to connect with her soul which empowered her to live her childhood dreams of being an artist. She paints by intuition, viewing her eyes and hands as a vessel for Spirit to express through her, seeing the inner world as colorful, magical and fun! The creative process puts her in the moment, in a meditative state that opens her up to rely upon faith and trust in the unknown result. Sheri hopes her art brings joy, healing and inspiration to others to live their dreams. Her art has appeared on magazine covers, exhibited in galleries, museums, restaurants, and her art is internationally collected both in private and corporate collections. Currently her art can be seen at Saltrock Grill in Indian Shores, FL., and JJ Watts Gallery in St. Petersburg, FL.
